

IA Series - Aluminum Foil Bag for Vacuum Packaging Material

IA series is the Aluminum laminated bag that has the absolute barrier to UV ray and exposure to the lights as well as moisture and oxygen. This most versatile bag can be used on various industries including food, medical and machinery from liquid to powdery items. It has a V-notch on both sides for easy tearing. Fuji Impulse recommends using the bag along with oxygen scavenger.

- Composition: PET/AL/PE
- Thickness: 0.08mm
